Journey to 10,000 B.C.E.

Part One Directions: Watch the video clip on Paleo-Indians and answer the questions below.

1. How did Paleo-Indians “divide the world”?

**Edible and Inedible**

2. How did the brain capacity of Paleo-Indians compare to that of modern man?

**They had the same brain capacity**

3. What did Paleo-Indians lack that modern man has acquired?

**Information**

4. What was the purpose of flint knapping?

**To make projectile points for hunting**

5. Why did Paleo-Indians use atlatls when hunting?

**Increased the speed for throwing spears and allowed them to be thrown from a distance for safety when hunting**

6. Besides meat for food, how did Paleo-Indians use the animals that they hunted?

**Hides used for robes; bones used for tools; bone marrow eaten for its nutrients**

Part Two Directions: Based on your answers to the questions above, make three inferences (educated guesses / logical conclusions) about Paleo-Indians.

1. 

2. 

3.
